

Prof. Dr. Othmar M Lehner

Director of the Hanken Centre of Accounting, Finance and Governance,
Hanken School of Economics, Helsinki, Finland

Vice Dean for the QTEM,
Quantitative Techniques in Economics and Management, Finland

Associate Professor of Accounting, Hanken School of Economics,
Helsinki, Finland

Full Professor in Finance (hon.), Middlesex University London, UK

M: othmar.lehner@hanken.fi

Narrative CV

Prof. Lehner's research interests are situated on the intersection of accounting and organization theory, with a focus on ethics and sustainability as well as the use of artificial intelligence therein. He spent more than 10 years in the accounting and finance industry as risk manager and chartered financial accountant after graduation before returning to academia in 2010, with following habilitations, leading to higher doctorates as docent in the fields of both accounting and information sciences. As associate professor of Accounting in Helsinki, at the Hanken School of Economics (AACSB, EQUIS, AMBA), he uses his diverse backgrounds in accounting, finance, and information sciences to drive forward the field with interdisciplinary research, as keynote speaker at global industry events, and through advisory and project activities for organizations such as the OECD or EU, for example as PI in Horizon Europe programs. Dr. Lehner is also the administrative director of the Hanken Centre of Accounting, Finance and Governance in Helsinki, and a full professor in Finance (hon.) in London. In service to the field, he additionally fulfills the role of editor in chief of the Emerald Journal of Applied Accounting Research (ABDC: B ranked, ANVUR: A, SCOPUS). He is a personal signatory of the DORA declaration on research that creates impact.

Previous to his current post at Hanken, as professorial fellow at the University of Oxford from 2014-2019, he developed one of the first data driven portfolio optimization models to include ESG related social and environmental risks and returns for use in UK and US pension funds, and has contributed to the revisions of the UK Financial Services and Markets Act 2000 on the taxation of Crowdfunding for social ventures. Prof. Lehner is well published in FT50 and other reputed journals, a passionate book author, and a regular reviewer at the Accounting, Organizations and Society Journal, the Journal of Business Ethics, and the Accounting, Auditing and Accountability Journal, with several recommendations as outstanding reviewer. He was nominated and a finalist for the best international research award by the public and non-profit division of the Academy of Management in Boston in 2018, and won several best paper awards, among, the Emerald Literati Outstanding Paper Award for accounting research in 2020.

His motto is: "Robust, interdisciplinary research for a positive societal impact"

Academic Appointments

- 2019 – Director of the Hanken Centre of Accounting, Finance and Governance

Associate Professor in Accounting, Hanken School of Economics (AACSB, AMBA, EQUIS), Helsinki, Finland <https://www.hanken.fi/en>

Vice Dean for the QTEM Quantitative Techniques in Economics and Management, Finland <https://www.qtem.org/>
- 2018 – Full Professor in Finance (hon.)
Centre for Enterprise and Economic Development Research
Middlesex University of London, UK
- 2018 – Docent in Information Sciences, University of Jyväskylä
- 2014 – 2019 Professorial Fellow, Smith School of Enterprise and the Environment
University of Oxford, UK

Academic Visitor at the Said Business School, University of Oxford, UK

Director and Visiting Professor, ACRN Oxford Research Centre, Oxford UK
- 2010 – 2014 Lecturer, University of Jyväskylä
School of Business and Economics, Jyväskylä, Finland (AACSB)
- 2012 – (Fractional) Professor in Finance and Risk
FH Upper Austria, School of Business and Management

Previously, in the professional life after graduation in 1990s, he was working as risk manager at the Citigroup London and as Chartered Financial Accountant in the banking industry for more than 10 years.

Educational Background

- 2018 *Habilitation*, Docent in Accounting (higher doctorate leading to a *venia docendi*), Hanken School of Economics, Helsinki, Finland (AACSB, EQUIS, AMBA)
- 2018 *Habilitation*, Docent in Information Sciences (higher doctorate leading to a *venia docendi*), University of Jyväskylä, Finland (AACSB, AMBA)
- 2017 Massachusetts Institute of Technology, MIT, Boston, US
MIT xPro Graduate: Data Science and Big Data Analytics

- 2017 Fraunhofer Institute for Intelligent Analysis- and Information Systems, Germany
Certified Data Scientist
- 2012 *Doctor of Science in Economics and Business (4yr PhD)* on Sustainability
University of Jyväskylä, Finland (AACSB, AMBA)
Examiners:
Prof Johanna Mair, Stanford University, United States
Prof Kai Hockerts, CBS Copenhagen, Denmark
- 2006 International Programme in Finance, London School of Economics, University of London
- 2005 *Master of Business in Finance and Accounting*, University of Linz, Austria
- 1995 *Business and Information Sciences*, University of Linz, Austria

Recent Awards and Honours

Emerald Literati Award, Winner Outstanding Paper 2019 in Applied Accounting Research
for the best paper:

Lehner, O.M., Harrer T., and Quast, M. (2019), *Building Institutional Legitimacy in Impact Investing: Strategies and Gaps in Financial Communication and Discourse*, Journal of Applied Accounting Research, (ISSN 0967-5426), 20(3), 416-438

Finalist for the Carolyne B Dexter Award 2018 for the best international management research paper
at the Academy of Management, Chicago, for:

Lehner, O.M., Harrer, T., Quast, M., (2018). *Legitimacy and Discourse in Impact Investing: Searching for the Holy Grail*. Academy of Management Proceedings, (ISSN: 2151-6561), Vol. 13
<https://doi.org/10.5465/AMBPP.2018.114>

Best Paper Award 2018, PnP Division of the Academy of Management Conference, Chicago, 2018

Best Paper Award 2018, Hermann Zemlicka Award of Springer Nature - Accounting Information Sciences and Neurosciences

Sage Springer Nature Recognition of Outstanding Reviewer for Journal of Business Ethics: 2018, 2019, 2020

Elsevier Certificate for Outstanding Reviewer: 2017, 2018 and 2019

Emerald Certificate of Outstanding Reviewer: 2019

Best Paper Award for global Social Entrepreneurship Research 2015. New York University, NYU Stern.

Relevant Organisational and Board Memberships

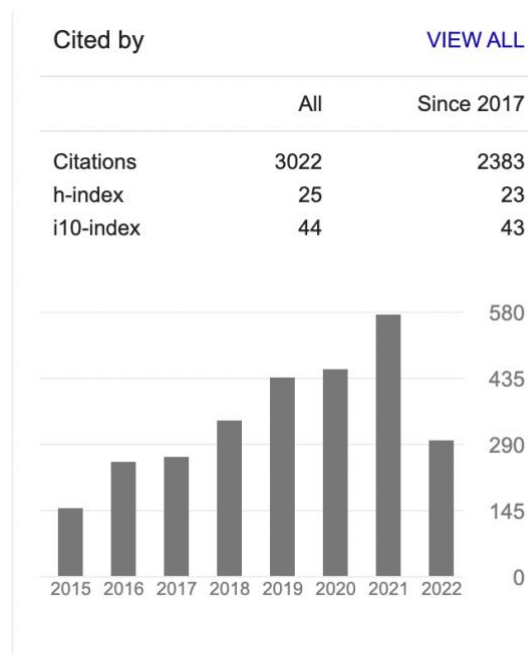

- AAA, American Accounting Association and EAA, European Accounting Association
- AOM, Academy of Management, USA
- ÖGWT, Austrian Chartered Professional Accountants' Association
- AACSB: AQ and PQ Qualification

Recent Keynotes and Speeches

- 2022 Keynote Speaker on Artificial Intelligence and Innovative ESG Reporting at the International Controller Congress, Munich, May 2022
- 2021 Keynote Speaker, and Co-Organizer of the Panel on *Impact Investing in Times of Crises*, at the 81st Academy of Management Conference
- 2020 Keynote Speaker at the EU Summit on the *ESG Taxonomy for Sustainability Accounting*, EU Commission, Brussels, Belgium
- 2020 Keynote on *Social Justice in Impact Investing* in the Ethics Symposium of the 24th annual AAA, American Accounting Association Meeting, Atlanta
- 2019 Keynote Speaker on *Measuring Sustainability and Impact* at the Impact Investing World Forum, London, UK

Publications

My current bibliometrics according to Google Scholar (retrieved May 2022), including FT50 and other highly ranked journals.

Recent Academic Books and Book Chapters

Note to the valued reader:

I am strongly motivated by the potential impact that my research can achieve and have found great value in writing and editing peer-reviewed, academic books that help bring together multiple, in-depth perspectives on a topic and allow for longer discussions of theoretical but also practical implications without compromising scientific rigor and relevance.

Working with Routledge, Edgar Elgar and Oxford University Press has also helped tremendously in the global dissemination of the topics that are dear to my heart and led to intense networking towards future research grant applications. That of course does not mean any neglect on publishing academic journal articles as my statistics show, just that I aim for a balance of publication outlets based on maximizing societal impact of my research.

Creating Impact with my Academic Work and Research

As a personal, individual signatory of the Declaration on Research Assessment (DORA), I would like to elaborate on the impact of my research on three major cases.

Case 1. Contributing to the UK Financial Services and Markets Act 2000, amendment of 2014

I developed a model how *Crowdfunding for Social Ventures* structure can and could work to provide the necessary startup capital for social ventures and allow leveraging further debt capital from foundations or social banks. In later publications this model was refined and expanded by regulatory dimensions and included tax reliefs. This model then was the groundwork for an invitation to discuss with UK government advisors at Whitehall London, which ultimately led to my contribution to the UK 2014 amendment to the UK Financial Services and Markets Act 2000 that included this model to elicit further private money for social ventures.

Related publications:

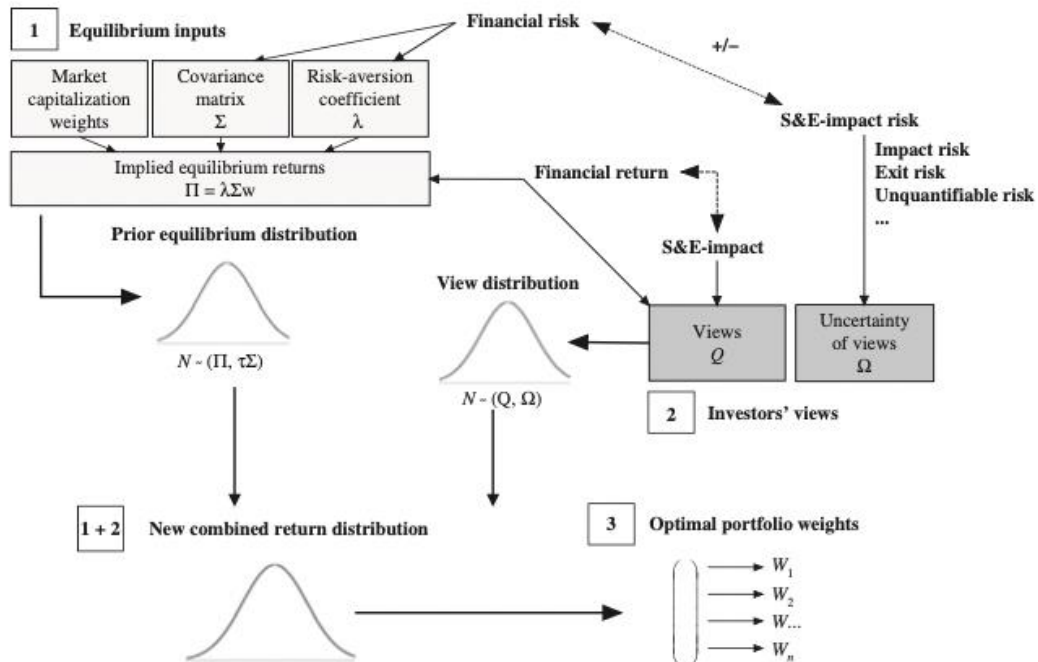

Lehner, O.M., (2014), *The Formation and Interplay of Social Capital in Crowd Funded Social Ventures*, Entrepreneurship & Regional Development (ISSN: 0898-5626), 26(3), 478-499.

Lehner, O.M. and Nicholls A., (2014), *Social Finance and Crowdfunding for Social Enterprises: A Public-Private Scheme Providing Legitimacy and Leverage*, Venture Capital: An International Journal of Entrepreneurial Finance (ISSN: 1369-1066), 16 (3), 271-286.

Lehner, O.M., (2013), *Crowdfunding Social Ventures: A Model and Research Agenda*, Venture Capital: An International Journal of Entrepreneurial Finance (ISSN: 1369-1066), 15 (3), 289-311.

Case 2: The Development of a multivariate impact portfolio optimization model that includes ESG data for use in US pension funds impact decision making

Together with my brilliant doctoral student Lisa Brandstetter, I developed one of the first mathematical portfolio optimization models (based on works by Black Litterman) that allows performing a rational portfolio optimization, which includes not only financial returns and financial risks, but also considers social (environmental) returns and risks. This allows for example fund managers to make mathematically founded decisions, while allowing investor specific preferences to parameterize the model. This model was published and taken up by a large US pension fund, first for back testing and now for augmented use. It is currently expanded to include the full spectrum of ESG impact perspectives.

Related publications:

Lehner, O.M. and Brandstetter, E., (2015), *Opening the Market for Impact Investments: The Need for Adapted Portfolio Tools*, Entrepreneurship Research Journal (ISSN: 2157-5665), 5 (2), 87–107.

Case 3: Establishing the ACRN Oxford Ltd. as an originally EU funded interdisciplinary research centre – as Initial Training Network (ITN) that bridges Finance, Risk and Accounting perspectives and trains early career researchers

Based on an EU funded initial training network ITN, the resulting research organization remained intact and self-sustaining even after the funding period; from 2012 to 2021 under my lead as director. In these years, the annual ACRN FRAP conference (Finance, Risk and Accounting Perspectives) became somewhat of a flagship conference for interdisciplinary perspectives in these fields (such as sustainable finance and accounting or the digital transformation). The conference originally altered at Oxford and Cambridge universities but was later invited to Austria, Denmark and Finland. Furthermore, a dedicated journal (SCOPUS listed) was created, the ACRN Journal of Finance and Risk Perspectives. Numerous doctoral and post-doctoral students have been working or visiting the ACRN Oxford, and the community remains intact but was now brought to my new home at the Hanken Centre for Accounting, Finance and Governance in Helsinki.

Further impact with my research

- Editor in Chief of the Emerald Journal of Applied Accounting Research (ABDC: B, ANVUR:A, SCOPUS, AJG/ABS:2) - https://www.emeraldgroupublishing.com/journal/jaar?_ga=2.227720797.1193616685.1653920666-1053067588.1653579466
- Permanent reviewer and committee member for at the *Swiss National Science Foundation* for the area of accounting - <https://www.snf.ch/en>
- Contribution on impact measurement, to the 2016 OECD report by Karen Wilson on Sustainable Development Goals as business opportunities and grand challenges
- Conference Chair of the 11th. 19th Annual, international Finance, Risk and Accounting Perspectives (FRAP) Conference, alternating at Oxford, Cambridge, Upper Austrian and Hanken Universities.

And of course, as supervisor, by actively enabling and critically challenging numerous masters and many doctoral students to finish their theses, I am very proud of each and every one of them and the impact they have. Some have now already become professors in the field or taken up posts such as head of sustainability at a bank or chief investment officer at a global venture philanthropy foundation.

Supervision and Examination of Doctoral Students

Supervisor and director of studies for five successful doctoral students in the last five years, and supervising more than 80 master theses over the last ten years.

Acting as examiner and opponent for doctoral theses amongst others at the CBS Copenhagen Business School, UNISA South Africa, Kepler University of Linz, Austria, WU Wien Vienna University of Economics and Business, University of London, and the University of Edinburgh.

Recently finished doctorates:

T. Harrer, 2021, Communicating Values: Essays On Trust and Legitimacy as Dynamic Drivers of Decision-Making in Crowdfunding, Middlesex University of London, UK

L. Perkhofer, 2021, A cognitive load-theoretic framework for optimal decision-support to visualize data in managerial accounting, Vienna University of Economics and Business, Austria

A. Agrawal, 2020, Impact Investing Strategies, Copenhagen Business School, Denmark

A.D. Joseph, 2016, Effective pricing of double Asian options. University of South Africa (UNISA), Cape Town, South Africa

D. Frydrych, 2015, Entrepreneurial legitimacy and outcomes in rewards-based Crowdfunding, University of Edinburgh. Scotland

Recently Won Public Grants (last five years)

EU Horizon 2020 - TC4BE - 101082057 - GAP-101082057, 2022-2026

Project: *Transformative Change in Telecoupled Agrofood Systems for Biodiversity and Equity*

Consortium: Greenwich University London, Wageningen University, Hanken School of Economics and further valued NPOs and regional implementation partners in South America and Africa

Role: Lead Application Writer, Principal Investigator (PI), Administrator for Hanken

Sum: 2.9 m EUR

Independent Research Fund Denmark | Thematic research – Green transition, 2020-2022

Sum: 840.000 EUR

Teaching

Motto: "The guide on the side rather than the sage on the stage"

In my lecturing I use a combination of styles, including online and tele-elements, videos, practical (statistical) modelling in spreadsheets, SPSS and Python, discussions, and impulse presentations. I have been lecturing since 2009 in various settings at Bachelor -, Master - , Executive Master - , and doctoral levels.

Courses at Hanken and London Universities over the last five years:

Accounting in the Digital Age (Master)

based on my book - Artificial Intelligence in Accounting: Organizational and Ethical Perspectives, Routledge Studies in Accounting

Financial Risk Management (Master)

based on the book by Hull, Options, Futures and Derivatives, Pearson

Good Corporate Governance, Risk and Compliance (Master)

based on my own articles in the Journal of Business Ethics and Accounting and Auditing and Accountability Journal

Sustainability Accounting and Impact Investing (Master)

based on my book - Routledge Handbook of Social and Sustainable Finance, and own articles in the Journal of Applied Accounting Research and Journal of Business Ethics

Data Science and Artificial Intelligence for Decision Making in Finance and Accounting (Master)

Based on my own reader and teaching cases forthcoming as book

All courses have been evaluated by students and faculty and were included in the AACSB continuous improvement cycles with high scores. Average Percentage of successful exams per round: 72%
